

Induction heating with automatic hood

The Series 20 induction hob promises fast, efficient heating for every meal. And when paired with Hob2Hood®, cooking smells are automatically extracted. The hood's fans are wirelessly connected to the hob, and will speed up or slow down depending on the temperature.

The Series 20 induction hob promises fast, efficient heating for every meal. And when paired with Hob2Hood®, cooking smells are automatically extracted. The hood's fans are wirelessly connected to the hob, and will speed up or slow down depending on the temperature.

Product Benefits & Features

Induction hob is easy to clean, fast and safe

Induction technology only heats the base of the pan, so the surrounding area will remain cool to the touch. And seeing as the surface is completely smooth, it's easy to clean with the wipe of a damp cloth.

Automatic fans, with Hob2Hood

With Hob2Hood technology, the fans overhead will adjust on their own based on your hob's settings. As you cook, the fans will speed up or slow down to match any temperature changes you make. So you can forget about hood settings, and focus on your tasty meal.

Touch Controls, designed for easier cooking

Specify cooking levels, set timers and adjust temperatures with the Touch Controls. The operation panel is embedded directly into the hob's glass. For full cooking control with a few taps.

Intense heat when you need it, with PowerBoost

The PowerBoost function is designed for intense heat on demand, by quickly bringing water to a boiling point or turn up the temperature under your griddle pan for searing and sealing steaks. Built for convenience, to make preparing your favourite meals easier.

No overcooking with Timer function

When the timer you've set runs out, the hob will automatically switch off the heat. It can be set to a maximum limit of 1.5 hours, which means that even if you're concentrating on a few different things at once, your meal will be ready when you are.

- 15 power level digital display
- Wipe clean ceramic hob surface
- 4 Induction zones with Powerboost
- Child lock safety function.
- 99 minute timer with acoustic signal
- Easy to reach front controls

Product Specification

Dimensions (mm) (WxD)	590x520
Built-in Dimensions (mm) (HxWxD)	44x560x490
Aperture Cut Out (mm)	5
Cord Length (m)	N/A
Left Front - Power/Diameter	2300/3700W/210mm
Left Rear - Power/Diameter	1800W/180mm
Right Front - Power/Diameter	1400/2500W/145mm
Right Rear - Power/Diameter	1800W/180mm
Gas Supply: Natural Gas	No
LPG Conversion Kit Included	No
Gas replacement	No
LED Colour	Red
Product Number (PNC)	All Open
Plug or Hardwired	Hardwired connection only
