Subject to availability. Please check with your local dealer for accessories available in your region. The overview represents an excerpt of the most important accessories. All other accessories of the appliance and further information are available at [home.liebherr.com](http://home.liebherr.com).

<sup>1</sup> In accordance with Regulation EU 2019/2016 we indicate the total volume to the nearest integer (rounded off) and the volume of the frozen compartments and refrigeration compartments to one place after the decimal point.

## Features

### EasyFresh

The guarantee of market freshness in the home is our EasyFresh-Safe. Whether it's unpackaged vegetables or fruit, this ensures optimal storage for everything. Thanks to the air-tight closure, the food causes the humidity in the safe to rise. This keeps the food fresh for a long time.

### Retrofitable SmartDeviceBox

Want to be prepared for the future of the Smart Home? Your Liebherr will be happy to help. You can retrofit it with a SmartDeviceBox which will connect your Liebherr to the Internet. The SmartDeviceBox can be installed in just a few steps and will open up the whole world of digital possibilities to you today.

### Touch display

Fingertip control: the touch display enables easy and intuitive operation of your Liebherr. All functions are clearly arranged on the display. By gently tapping a finger, for example, you can easily select the functions or check the current temperature of your refrigerator.

### Space for baking tray

Do you want to keep that home-baked fruit pie fresh? Or maybe a prepared pizza to be baked later on? If so, simply slide your baking tray into your Liebherr -- it has plenty of space for storing a baking tray. Really convenient -- you can slide the baking tray in and out when the door is opened at 90°.

### PowerCooling system

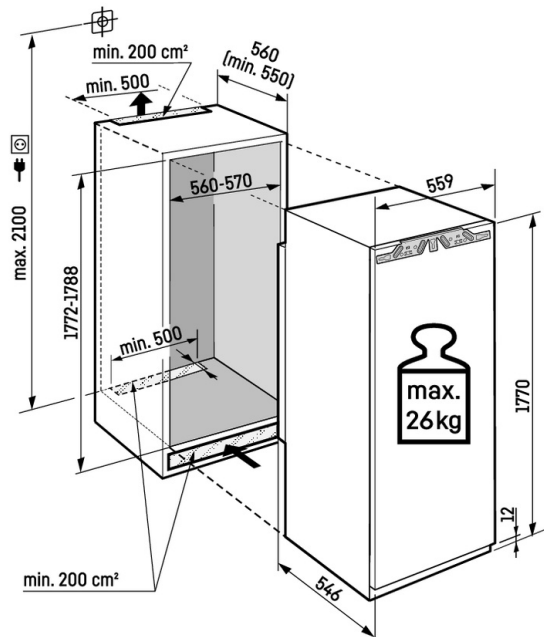

Do you want to be sure that the cold is distributed as evenly as possible in your refrigerator? If so, the PowerCooling system is what you need. The fan -- as powerful as it is quiet -- distributes the cold air efficiently throughout the entire refrigeration compartment.

### SuperSilent

Shhh -- listen carefully. Your Liebherr is so quiet that you have to strain your ears to hear it. How is this achieved? All refrigeration components such as compressors, valves, fans and evaporators are optimised and perfectly adapted to one another. This means you only hear what you want to hear in your kitchen.

<sup>1</sup> In accordance with Regulation EU 2019/2016 we indicate the total volume to the nearest integer (rounded off) and the volume of the frozen compartments and refrigeration compartments to one place after the decimal point.

## Features

### NoFrost

When you open your freezer, you want to see frozen food – and certainly not ice and frost. NoFrost protects the freezer compartment from unwanted icing, which consumes a lot of energy and can be expensive. NoFrost means no more tedious and time-consuming defrosting of the freezer compartment, more time for other things – and saving money.

### Retrofitable SmartDeviceBox

Want to be prepared for the future of the Smart Home? Your Liebherr will be happy to help. You can retrofit it with a SmartDeviceBox which will connect your Liebherr to the Internet. The SmartDeviceBox can be installed in just a few steps and will open up the whole world of digital possibilities to you today.

### Touch display

Fingertip control: the touch display enables easy and intuitive operation of your Liebherr. All functions are clearly arranged on the display. By gently tapping a finger, for example, you can easily select the functions or check the current temperature of your refrigerator.

### VarioSpace

Looking for somewhere to safely store a multi-tiered ice cream cake until the summer party? No problem for your Liebherr freezer: it knows that sometimes you just need more space. Thanks to VarioSpace, you can simply remove individual freezer drawers – and voilà: here's your extra-high storage space!

### SuperSilent

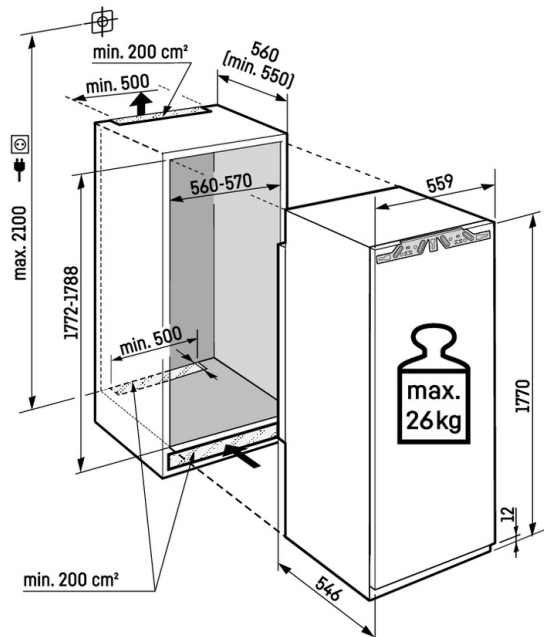

Shhh – listen carefully. Your Liebherr is so quiet that you have to strain your ears to hear it. How is this achieved? All refrigeration components such as compressors, valves, fans and evaporators are optimised and perfectly adapted to one another. This means you only hear what you want to hear in your kitchen.

### Integrated drawer slides

When the freezer drawers are opened and loaded, the integrated drawer slides give you convenient access to your food at all times. The pull-out stop prevents drawers from falling out when opened. On closing, the drawers slide into their final position with ease which ensures ideal air distribution in front of the drawers and therefore the best possible cooling.

## Technical drawing
